Cartes & IT Security > Exhibitions and Conferences

5, 6, 7 November 2002

New venue:

Paris-Nord Villepinte Exhibition Centre - France

Cherchez l'Expo

As a part of the Cartes & IT Security 2002 Exhibitions and Conferences, the SESAMES Awards have become the unchallenged innovation and application label, and a global standard for card manufacturers and related industries.

This competition is open to Cartes & IT Security trade show exhibitors, as well as to international industry actors: manufacturers, users, integrators and developers.

This year, for the 7th consecutive edition, 120 application forms have been submitted, representing 13 countries: Belgium, Canada, Finland, France, Germany, Hungary, Italy, Japan, Korea, Switzerland, Turkey, United Kingdom, United States of America.

The top three Year 2002 SESAMES honorary awards are:

SESAME for the Best Technological Innovation

SESAME for the Best Software

SESAME for the Best Application

- IT Security
- Transportation
- Banking/Finance
- Health Care
- GSM
- E-Commerce
- Customer Loyalty

The most innovative entry among nominees for the applications above will receive the SESAME for the Best Application.

The SESAMES Awards are given out by a jury made up of international experts in smart card technologies: journalists, industry professionals and manufacturing experts.

THE SESAMES AWARDS 2002 ARE SPONSORED BY

Customer Loyalty

Loyalty Program With Crm On Smart Card

We developed a very simple method to instantly analyze customer's buying habit with minimal data and limited hardware performance of smart cards. This system realizes a real-time analysis to find loyal customers at the shop without a server. It improves the quality of face-to-face service at the shop to build a good relationship with customers.

Company name
Hitachi Ltd.

Address
1-280 Igashi-Koigakubo, kokubunji
185-8601 Tokyo
Japan
